Paphos Third Age (P3A) Membership Data Collection Consent Form

I understand that the P3A will collect and store my personal information which I provide, for the sole purpose of running the P3A Association and organising activities in accordance with its Articles of Association, and in accordance with the Law of Cyprus. The P3A's Data Protection Policy is available on the P3A website's Homepage.

The information collected may include my name, postal address, email address, telephone number and (optional) languages spoken and previous occupation.

This information will be securely stored by the Membership Secretary on behalf of the elected P3A Committee. It will not be given or sold to any third parties, except insofar as is required by the Law of Cyprus.

I understand that when I join a group, the group leader may collect and store my name, email and possibly telephone number, for the sole purpose of running group activities.

I consent to my personal information being used by members of the P3A Committee, and the leaders of any groups which I join, for the following purposes:

- to provide me with services or information I have requested;
- to provide me with information about P3A activities;
- to invite me to participate in events, meetings or surveys;
- for administrative purposes e.g., for any query about my membership;
- to inform me when my membership is due for annual renewal;
- to ensure that those regularly taking part in activities are P3A members;
- for internal record keeping;
- to analyze and improve the services offered by P3A;
- where it is required by the Law.

I understand that I have the right to access the information held on me at any time, on written/email request to the Membership Secretary. I have the right to request an update or correction to my data. I have the right to restrict the processing of my data (e.g. to cease receiving P3A communications.) Again all requests shall be in writing/email to the Membership Secretary.

Upon termination of my membership, I have the right to have my data erased, once that data is no longer necessary for the above purposes.
